

Did you miss your Year 10 vaccinations?

It's easy and **FREE** to catch-up at a local pharmacy or with your GP.

What vaccine is recommended in Year 10?

1. Meningococcal ACWY

How do I know which vaccines I've had?

1. Check online via MyGov or Medicare mobile app.
2. If you are 14 or older you can access your own record.

Why should I catch up and get vaccinated?

1. Vaccination prevents serious illness. Meningococcal disease, for example, can be fatal or cause brain damage, deafness, scarring or amputations.
2. Getting vaccinated on time ensures you receive the best protection.
